The environment itself

if every error he makes
is manifest to him,
without the intervention
of a parent or teacher,
who should remain a quiet
observer of all that happens.

Echoes from Home

When we first admitted him to that school, we were quite worried about his maturity. But they assured us that they would bring out the best in him. We trusted them. We were hopeful but we did not know that our son would improve so much in such a short period of time! Just after a few months of admission we started to notice clear speech and his approach towards certain things had also got better. He is now more responsible and has a great sense of how to use his free will. He has also become very curious and eager to learn. We are so happy that our son has improved so much. Admitting him to this George Kids School was a very good idea indeed!

Echoes from Home

George Kids school is second home to me & my son, Ritavij Bosu. After 1 year of attending playgroup classes my son can write all the alphabets (capital & small) & numbers. He knows National anthem, songs, rhymes, various colours, animal & birds name, emotions & drawing. He can tell about himself & stories, even understand various commands in english. He has become more active & social. All the teachers are helping to grow my boy like a mother. I have my full trust & faith in George Kids School.

Echoes from Home

At first Sunrita came to know about school from me. The term 'school' was in her imagination and was mumbling herself about her dream in school. We choose the best pre-primary school, George Kids School, Bolpur. Now she enjoys in the school. The teachers are very kind and caring and they are making surprising creative activities which is so attractive to my ward.
